

## Therapy Assistant – Zanda

We have an exciting position at our newly established and expanding organisation.

We are seeking a highly personable Therapy Assistant to work with children with additional needs and their families.

### What we're offering:

- Opportunity to develop your skills, under the supervision of qualified allied health therapists
- Fun, social work culture – with fortnightly team catch-ups
- Flexible working hours – which can fit around study schedule
- Attractive rates of pay, between \$25- \$30 per hour dependent on experience
- Opportunity to complete further professional development programs
- Opportunity to be involved in, and support innovative group therapy programs

### Job requirements – Therapy Assistant at Zanda

- Be able to confidently and independently work with children aged 2-12 years old in their home environments
- Be able to establish excellent rapport with children and parents
- Be able to follow therapy plan activities – under direction of therapist (however, we will provide you with all the materials, activities, and support you need)
- Document simple notes in our practice management software
- Some ad hoc admin activities related to client's needs (e.g. preparing therapy resources, creating visuals...etc.)

### Other requirements

- Must have valid Victorian Drivers licence and car
- Must have Victorian Working with Children Check
- Must have National Police Check
- First aid – is highly regarded

### About you:

- Passionate about working with and helping children
- Highly personable, engaging and energetic!
- Responsible, available and reliable
- Must have demonstrated experience working with children (e.g. childcare... etc)
- Experience working with children with additional needs would be highly regarded
- Studying (or interested in) allied health, education, arts, dance...etc.

## About Zanda

At Zanda, our mission is to help children socialise & learn. We provide a personalised experience, building upon the child's strengths, using the latest research.

We help children aged between 2-12, in Metro Melbourne. Our therapists help children with:

- First words
- Having/understanding conversations
- Listening to instructions
- Making friends
- Speech sounds (articulation)
- Reading and spelling
- Stuttering
- Autism Spectrum Disorder
- Developmental Delays

We also provide innovative group therapy programs, for example our dance and music classes that target preschool aged children's speech, language and social skills, in a fun and engaging environment.
